Supervised by :Dr. Mohammed Saad Asiri

Year : 2023

1. Introduction

• Define the purpose of the website.

A national initiative from the Ministry of Interior in the Kingdom of Saudi Arabia aims to build a unified platform that includes everyone living in the Kingdom, citizens and residents alike

النفاذ الوطني الموحد

هي مبادرة من مركز المعلومات الوطني بالمملكة العربية السعودية لإصدار وإدارة هويات المواطنين والمقيمين الرقمية حيث بدأت كثير من الجهات الحكومية والخاصة بمواكبة التطور وتقديم خدماتها من خلال بوابات إلكترونية باستخدام معرفات إلكترونية (اسم مستخدم ورقم سري) كأداة تحقّق تسمح بالوصول إلى مواقع خدماتها الإلكترونية والتي هي في حقيقتها تعتبر هوية رقمية وترتبط بشخص الفرد وتمثل هويته في التعاملات الإلكترونية وتسمى" هوية رقمية". وتهدف هذه المبادرة لإيجاد حل شامل لإدارة وحوكمة الهوية الرقمية لتقديم خدمة النفاذ الإلكتروني الموحد على المستوى الوطني وتوفير الآلية والأدوات اللازمة لها لحل المشكلة التي تواجه الكثير من الجهات الحكومية والخاصة المتمثلة في إعاقة تقديم الكثير من الخدمات الهامة التي يستفيد منها المواطن والمقيم بسبب تدني مستوى المصداقية والثقة في الهوية الرقمية واحتمالية تعرضها للسرقة أو الاختراق.

(1)

• Explain its services.

-Self-registration of users.
-Verify users.
-Registration and automatic linking with service providers.
-Updating national identity cards through the Internet.
-Single sign-on taking into account the level of authentication.
-Attestation of electronic transactions and electronic signature.
-Self-service to manage verification standards

• What is the domain address?

https://www.iam.gov.sa/authservice/userauthservice?lang=ar

2. Strategy

• What is the category of the business, and is this obvious on the website?
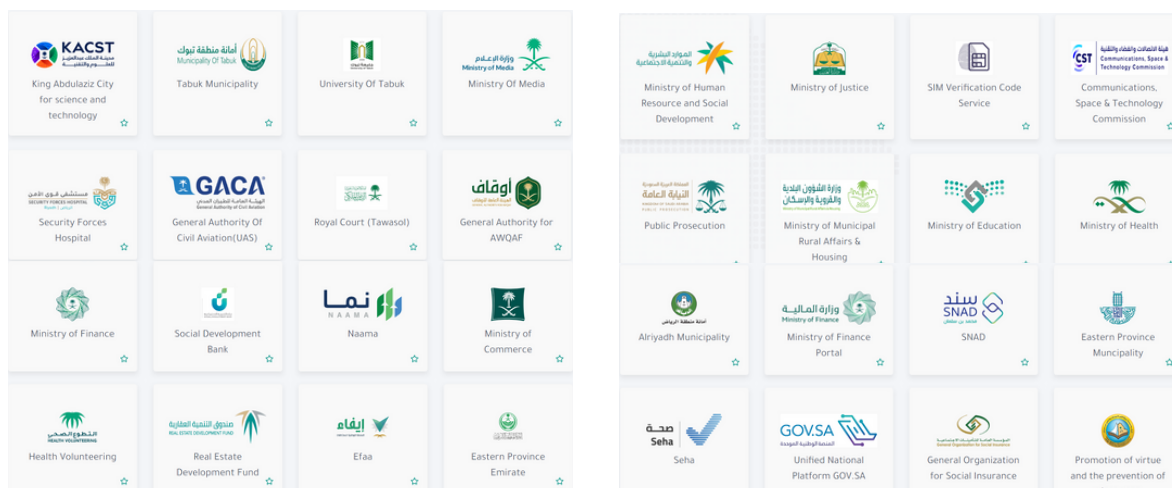

These are some sections and they are in general like government departments their shape is clear to the user

- **Is the design accomplishing the purpose of the website?**

Yes, the design of the site is clear to the user

- **Who is the target audience and how does the design take this into consideration?**

Targets citizens and residents in the Kingdom of Saudi Arabia

3. Usability

- How long does it take for pages to load,and will the visitors get bored waiting? There are free tools online to test page load speeds.
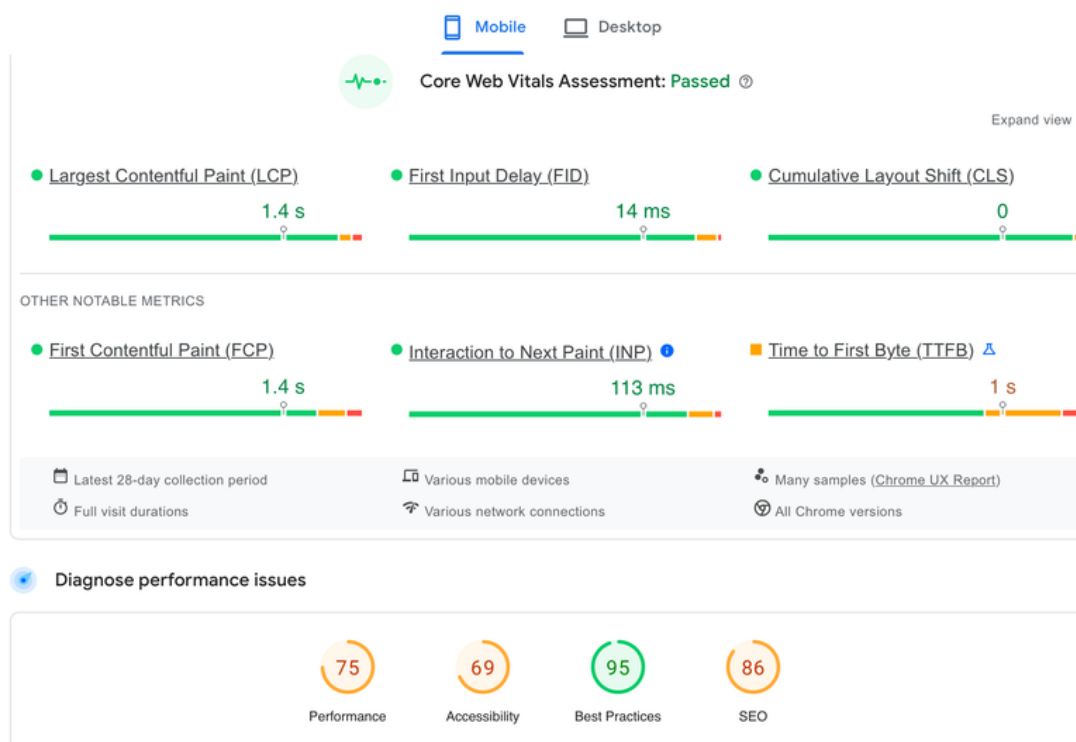

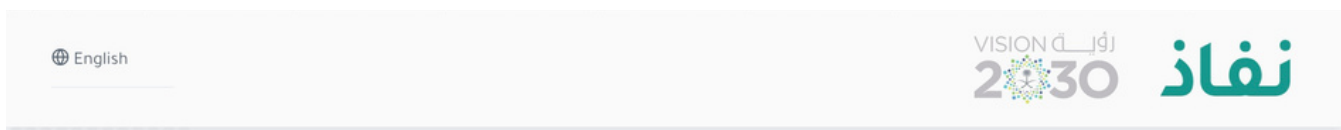

- ## Can information be found easily?

Yes the information can be found easily

- ## Is there a search bottom available for visitors?

No there is not.

- ## Are all the links working?There are tools available online to check a website's links.
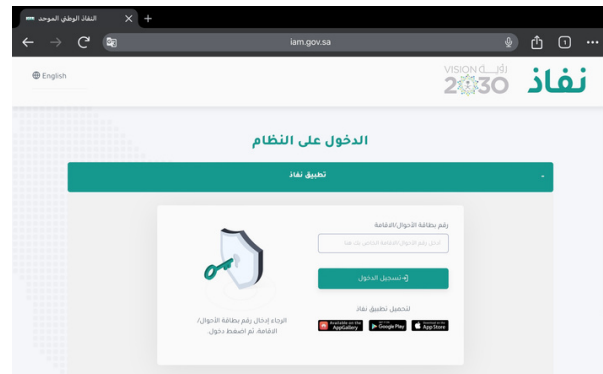

- **Does the website work in different browsers? Check all the widely used browsers.**

  Yes, it works in several browsers
  Safari   **Chrome**

  Edge

- **Does the website work on mobile devices?**

  Yes, it works on mobile devices. In the picture, there is an example of an iPhone 12 Pro.

4. Content and Readability
- ## Are the fonts that have been chosen easy to read?

    Yes, the fonts in Nafath are easy to read for the user.

(2)

- ## Is there considerable contrast between the font color in the background color?

Yes, there is a clear contrast between the font color and the background as shown in the picture (2).

- ## Is the text an appropriate size?

Yes, the text size is appropriate as shown in the picture (2).

- ## Is the content concise yet still useful?

Yes, its content is accurate and related to its intended purpose, as shown in image (1) on the first page, and the government and private sectors benefit from it in the field of trust and digital identity management, and issuing the "electronic identification card" for the individual or establishment in the digital identity system, as it allows the user to update His mobile number for digital identity without the need to visit kiosks, and the level of security is also very high by verifying fingerprints and a facial image using the mobile camera when receiving a verification request from one of the platforms or applications.

5. Write conclusion and at least three recommendations .

- **At the end of the report, we talked about the national access site and the services provided by the site .**

We conclude with these three tips for the site:

1- I hope it will be faster in implementation
2- Change the color of the interface line
3- Clarify the available services
